No problem. I just saw they were all the same Evap family and wanted to make sure everything was in Verify correctly. I'll work on the revised application and should have it completed yet today or tomorrow.

Sorry, I started rejecting them and got pulled away right in the middle of it. Thanks for reminding me to finish the other two.

Subject: Cert Requests Rejected

Hello Jim,

We received the rejected cert requests for testgroup FVGAI03.0AUD, but the three e-mails we received were all for Evap Family: FVGAR0140AAD. There should have been three conditional requests uploaded for the EVAP families below that need to be rejected so we can make the revisions and re-submit.

Testgroup: FVGAI03.0AUD

Evap Families: FVGAR0140AAD

FVGAR0140AAC

FVGAR0140NAF

They came through on the verify reports with the correct Evap families, so I'm not sure why these e-mails are all duplicated.

Feel free to give me a call to discuss if you have any questions.

Thanks Jim.

Regards,

Greg Allen
